Averages for the Second Series of the Wheeling League,

AN IMPROVEMENT OVER THE FIRST

Series' Averages is Seen in Almost Every Instance-The South Side Lengue Has a Banquet and Reor ganizes for the Summer-The Country Lengue Also Starts Up-New Orleans ltaces-Other News of Sport,

Yesterday Secretary Archer, of the Wheeling Bowling League, made public the averages of the players of the ten clubs of the Wheeling Bowling League, who contested in ten or more games during the second series, which has just closed. A feature is the fact that in almost every instance the players have done better work than in the first series. One reason for this improvement is the change in the rules allowing the ball to be thrown across the line. The aver-

SOUTH SIDE BANQUET.

The Bowlers Enjoy Thomselves and Reorganizes for the Summer.

Last night the annual banquet of the South Side Bowling League took place at Mozart park, about one hundred members of the eight clubs and their friends being present. The fun began at 2 o'clock in the afternoon and lasted until a late hour last night. Through-

until a late hour last night. Throughout the afternoon the eight-park alloys were kept busy and the "cracks" of the league piled up some big scores. No team work was indulged in until after the banquet when the Hustlers and South Side came together.

It was after 7 o'clock when the players gathered 'round the feative board and partook of the good things that had been placed before them. Carterer Edward Hoffrenter, of Mozart park, under whose auspices the banquet was prepared, was the recipient of high praise.

A generous supply of champaigne A generous supply of champaigneloosened the tongues of all and everybody pronounced it one of the most enjoyable of evenings.

master, but the proceedings were of a constraint a character that his services were not greatly needed.

The matter of reorganizing the league for the spring and summer season came

up, and the sentiment was in favor o not letting the organization remain in not letting the organization remain in-active until the next winter season of bowling. It was proposed that the pool or 'milenium' plan, that some of the base ball people want to see adopted, should be used, so that the several clubs would be of nearly equal strength, but this was voted down, for the reason principally that the present teams, even when they are weak, do not wish to break ap and form new teams. It was next proposed that the number of substitute players be reduced to two, so that more clubs can be organized, but this, too, was defeated, and four "subs" as heretofore will be carried on each club's roll.

The league will open its second season in a week or two, and it is quite proba ble that there will be twelve clubs and bowling on the alleys every night of

the week.

The feature of the evening was the game between the South Side and Hustler teams, that finished first and second in the lake championship race. During the season the two teams met four times, and each captured two games, For this reason the game last night was of great interest. The score was as follows:

South Side-Handlan 132, Marshner

107, Horstman 129, Kline 118, Wright 92, Blind 154; total 732. Hustlers-Kemple 145, Shafer 141, Ebeling 119, Walthers 129, Weisgerber 142, Blind 185; total 861.

The Country League

The Country League.

Last night the bowlers who are intorested in the organization of the Country Bowling League met at Charley Scibert's hospitable establishment out the pike and discussed plans for the coming season. The formal organization was not effected, but the league is sure to be a go with at least eight and probably ten clubs. After the business session, the visitors enjoyed an hour on the alleys.

The Bering Sea Matter. London, March 7.—Sir Richard Webster, member for the Isle of Wight division, of Hampshire, and one of the British counsel before the Bering sea tribunal of arbitration in the house of commons, to-day questioned the gov-ernment in regard to the negotiations for a settlement with the United States of the British scalers claims for seizure of the British sealers claims for seizure prior to the arbitration proceedings. He pointed out that the award of the tribunal was adverse to the United States, the only point unsettled being the amount of compensation, and that Canada has agreed to the sum she was willing to accept in full payment of her claims. Consequently Sir Richard Webster asked whether, in view of the great and growing discontent in Canada, the government proposes to take any (and if so what) steps to settle the dispute either by obtaining the payment by the United States of the agreed amount; or if necessary be arbitration. if necessary be arbitration.

CONSUL GENERAL WILLIAMS.

the Government Surprised at the Action of Spain-Mr. Williams' Splendid Re-cord-The Probable Cause of Spain's

Washington, March 7,-The nouncement through the press dis-Spanish government in Mr. Williams' case created great surprise in official circles here. The consul general has the highest reputation for efficiency in his duties, which are more onerous than those of any other consular post, and moreover he has always been on the best of terms with the Coban officials during the many years he has been at Ilavana. Mr. Williams is about sixty years of age. He was born in Washington and went to Cuba when a mere boy to engage in mereantile pursuits. He built up a large business and is reputed to have accumulated a fortune. His residence while in the United States has been in Brooklyn and he is credited in his appointment to the state of New York; He was appointed yies consul at Hayana by President Grant in 1874 while Mr. Henry Hall was thoconsul general. When General Badeau became contul general in 1881 he resigned his place, but in a few months General Badeau thaving in turn resigned, he was made consul general in 1981 he resigned his place, but in a few months General Badeau having in turn resigned, he was made consul general in 1881 he resigned his place, but in a few months General Badeau having in turn resigned, he was made consul general in 1881 he resigned his place, but in a few months General Badeau having in turn resigned, he was made consul general in 1881 he resigned his place, but in a few health of the place ever since without regard to political changes in the administration, owing, it is said, to his high shillies as a cousular officer. In addition to his consular duties Mr. Williams has been charged from time to time with duties of a diplomatic nature, such as the protection of American citizens in Cuba, there being no United States minister on the Island, and the state department has communicated directly with him in such cases instead of acting through the United States minister resident at Madrid.

It is surmised here that it was in the his duties, which are more enerous than those of any other consular post, and It is surmised here that it was in the

It is surmised here that it was in the discharge of such a function that Mr. Williams has become persons non grate, as the diplomatic term is, towards the Spanish government. He was very recently directed by Secretary Gresham to see to it that the American citizen, Agule Aguirre, charged with participation in the present rebellion in Cuba, have a fair trial. The Spanish officers were about to try the man to court martial, but yielded so far to the consul general's representations as to accord were about to try the man to court martial, but yielded so far to the consul general's representations as to accord him a fair trial by civil process, as provided for by treaty. It is pessible that his energetic action in this case has made him obnoxious to the Spanish officials. As he is a consular officer, and has no real diplomatic standing, he exercises his functions at Havana only by consent of the Spanish government, and, if so disposed, the government could terminate his connection at short notice by simply withstanding his exequateur, or written recognition of his right to not as consul general. If the Spanish government decided to do this, it would be under no obligation to ofter any teason for its action, beyond making the mere statement that Mr. Williams was personn nongrata. But such a course would be likely to leave a feeling of irritation on the part of the United States government towards Spain, and from the shape the matter has taken at Madrid it is believed that the Spanish government would be more likely to intimate to our government that it desired the withdrawal of Mr. Williams, a hint that would be promptly followed, provided the reason assigned did not concern the action of the officer in the strict line of his instruction. struction.

It is said at the state department that the Havana consular office is the busiest in the entire service, the corraspondence being more voluminous and the cases arising for adjudication being more numerous than elsewhere. The salary of the consul general is fixed at \$6,000 per annum, but in addition there are many unofficial fees which go to the consul general, bringing the total compensation of the place up to about \$10,000 or \$12,000 yearly.

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregorie, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea -the Mother's Friend.

Castoria.

"The use of 'Castoria' is so universal and

its merits so well known that it seems a work of supercregation to endonse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTER, D. D.,

New York City.

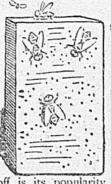

Castoria.

"Castoria isso well adapted to children that frecommend it as superior to any prescription known to me." H. A. Ancuna, M. D., 111 So, Oxford St., Brooklyn, N. Y. Kills Worms, gives sleep, and promotes di-Without injurious medication.

> "For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced benedicial EDWIN F. PARDER, M. D.,

"Well,"

said the bright woman who had asked for Pearline, to the grocer who wanted to sell her some imitation of it. "whether you do sell more of these other things or not, there must be something in Pearline which makes the flies avoid it. I notice that all the Pearline packages are clean and fresh. All the others are fly-specked!" This is a true story. Everything is

true that we print about Pearline. The thing in Pearline that keeps flies off is its popularity. It doesn't stay on the shelves long

enough to become soiled. When women want washing made easy, without any risk of harm, they must have Pearline. Send Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, honest—tend it back.
